

Elevate your entire campus store experience.

Just Walk Out
technology by 

Transact has integrated with Amazon to bring
frictionless shopping to campus stores.

Just Walk Out technology by Amazon enables shoppers to skip the checkout line so that they can get in and out of the store quickly and seamlessly.

Provide anyone on campus with a seamless digital shopping experience.

Just Walk Out technology is the most convenient way for students and other customers to shop at campus retail locations. Plus, it's fast, secure, and easy to learn.

- 1 Students open the Transact Mobile Ordering app and select "Just Walk Out."
- 2 Students scan their app to enter the store and shop.
- 3 After choosing their items, they are good to go!

Just Walk Out technology provides holistic store analytics that help you optimize efficiency and revenue beyond POS.

The technology is made possible by artificial intelligence including computer vision, sensors fusion, and deep learnings techniques including generative AI, which accurately determine what shoppers select for purchase.
