Bill Presentment
Integrated Payments

Your Digital Bill Presentment Solution

Provide students 24/7 convenience to manage their accounts, while improving business operations on campus.

Bill Presentment reduces time spent processing paper bills and provides comprehensive electronic bill statements and notifications.

How Bill Presentment Helps Your Staff

- Eliminate manual tasks and get instant delivery of invoices, allowing your staff to focus on students.
- Automates notifications of bill availability for students and payers, helping you deliver a better customer experience
- Students can quickly and easily access their tuition bills, financial aid details, student loans and real time account balance from a modern, self-service portal.
- Improves customer service and dispute resolution with simulated view options that show bills as they appear to students and payers

How Bill Presentment Helps Your Student Population

- Provides secure, easily accessible information via the Student Account Online Portal
- Offers alerts regarding bill availability via text, email, and student web portals
- Grants a comprehensive view of all account information, billing history, and charge details

Additional Presentment Modules

Dynamic Bill

Presents a real-time view of recent transactions and account activity detail-including financial aid

1098-T

Give your students the ability to view and download their tax forms electronically, reducing staff time and costs spent printing, mailing, and filing paperwork

Refunds

Provide students with centralized, flexible resources to receive their credit balance refunds quickly and securely.
