

Cashiering

Integrated Payments

Your business office payment platform

Utilize our flexible tools to securely manage payments across campus, from desktops to mobile workstations.

Benefits for your students

- Expedites transaction processing onsite
- Flexibility to use various tender types such as cash, credit card, campus cards, and check
- Real-time updates of account balances and payment history

How In-Person Payments help your staff

- Unlimited user licenses with centralized tools for dispute resolution management, reporting, customer information, and pop-up messaging
- Market-leading integration with various student information system (SIS) platforms to provide accurate student records and linked transactional history for financial services staff
- Simplifies the departmental deposit entry and receipt process
- Protects personally identifiable student and authorized third-party information. Point to Point Encryption (P2Pe) lowers your PCI costs by as much as 70% with savings reductions in penetration testing, vulnerability scans, compliance assessments, and more.
- Streamlines end-of-day balancing and reconciliation with centralized, detailed reporting
- Supports payment processing hardware such as EMV, NFC, magnetic stripe, student id cards, and more
- Includes resources to assist with cash management activities like petty cash, check cashing, and vault management
- Supports integrated, PCI validated payment processing via Transact CampusPay

Add-On Modules

Mobile Payments for iPad

Turn your iPad into a mobile cashiering station and accept electronic payments on-the-go.

CampusPay

PCI validated processing solutions that help you maintain compliance and absorb tuition and non-tuition based processing fees.
