# TRANSACT

ePayment
Integrated Payments

Modern tools for secure, campuswide payments

Payment processing is core to your business operations. ePayment helps schools automate the collection of funds with flexible, cloud-based solutions providing enhanced security, ease of use, and transparency across business operations.

How Online Payments help your staff

- Protects sensitive data with PCI Level 1 validated security to provide peace of mind for administrators
- Market-leading integration with various student information systems (SIS) and financial platforms to provide accurate student records and linked transactional history for financial services staff
- Supports several payment methods, including credit and debit cards, ACH, campus cards, international payments, 529 electronic disbursement, and digital wallets such as Apple Pay
- Virtual tools for staff to provide remote support andassistance via User Emulation and Customer Research Center components
- Supports custom messaging to help students and their authorized third-parties make more informed decisions

How we help your students

ePayment provides payment processing, transaction history, and account profile details via a web-based, mobile-friendly portal.

By leveraging web technologies to handle business office processes, students can view essential details without visiting the Bursar's office.

- Hassle-free international payment options
- Account notifications via text, email, and the web portal
- Recurring auto-pay features to help ensure students do not miss their due dates
- Family Educational Rights and Privacy Act compliant
- Payment Plan options
- Support for GradGuard™ Tuition Insurance

ePayment Add-On Payment Options

International Payments
Accept international payments through your student portal and web stores

529 Plan Integration
Enable students and parents to make payments from a supported 529 account.

ePayment Add-On Modules

Payment Processing
Transact streamlines payment processing across your online campus revenue centers by handling your account reconciliation, managing chargebacks, handling disputes, and saving you time coordinating with multiple banks and services.

Bill Presentment
Automate the delivery and notification of static bill details and optional tax forms.

Refunds
Quick processing and secure disbursement tools for financial aid and other types of refunds.

Payment Plans
Flexible tuition plans to help your students manage the growing costs of higher education. Choose between full-service or software-only payment options.

Dynamic Bill
Presents a real-time view of recent transactions and account activity detail including financial aid.
