

International Payments

Make it easier for international students to call your campus home.

Integrated Payments

Simplify tuition, housing, and other payments from around the world with Transact International Payments.

Students have the freedom to choose how they pay—whether through bank transfers, credit cards, alternate payment methods, or a combination of options—using a single app, Transact ePayment. Plus, students have full transparency into exchange rates and fees.

For schools, Transact International Payments streamlines payments by integrating directly into your Student Information System and includes built-in tools to ensure local, regional, and global compliance with laws and regulations. Reconciliations and transparency across transactions are a breeze. Another plus: There’s no additional cost to use the solution—simply activate the feature within your Transact ePayment platform.

Transact has banking partners  in **162 countries** and over **130 currencies**

Built on years of Transacts’ innovation in higher education payments, Transact International Payments delivers:

- **Streamlined checkout process.** We integrate with existing Student Information Systems, and all international payments are managed through one integrated platform. Students don’t need to create another separate account to complete payment. User details are prepopulated directly from the student portal for a fast, seamless and native check out experience
- **Competitive and convenient.** Students have full transparency to compare and take advantage of competitive exchange rates within the student account portal. Plus, there are no international wire fees or bank transfer fees.
- **Impressive customer service.** Students have access to 24/7 multilingual customer support, and universities receive dedicated, live customer support tailored to their campus needs. A ChatBot feature is also provided to help students and payers complete the checkout process in their domestic currency of choice.
- **Compliant and secure.** Our campus technology solutions strictly adhere to rules for data security, privacy, and accessibility as set by the PCI Council, ADA, and Global Processing.
- **No additional cost.** Transact International Payments is included with the ePayment solution.

ONE in every **20** U.S. COLLEGE STUDENTS is an international student.
